Postal signing arrangements for
JSA participants

Communicate, experiment and engage
via multimedia technology

Peace Bytes Unique ICT creative approach will focus on personal development, good relations, peer leadership and citizenship. All participants will be fully supported by a team of professional youth workers and good relations experts whose goal is to address any barriers to positive physical and mental wellbeing. We aim to raise the capacity of communities and leave a legacy of future leaders who will promote peace and reconciliation.

Citizenship

Get involved in your community and build the skills to make positive change.

Benefit from 1:1 and peer lead sessions, tailored to your needs.

Peer Mentoring

Good Relations

Work with and meet new people and friends from different communities and learn together.

Using ICT at the core of our projects, design a programme and aim to leave a lasting legacy within your own community.

Social Action
